## PROJECTS

### Books Key

Developed a dynamic website using HTML, CSS, and JavaScript for managing book information. Users can add unlimited book data, including titles, authors, and descriptions. This project showcases my proficiency in front-end web development and handling dynamic content efficiently.

### Portfolio Website

Build a website for a personal portfolio to showcase my accomplishments, abilities, and background. The website offers a smooth experience because of its responsive and dynamic design. JavaScript was used to integrate dynamic features and improve functionality. Higher efficiency and cross-browser compatibility on multiple devices.
